

Calculation:

The sum of your practice bids

A quote directly from your provider

$$\frac{(\text{Grant Project Bid} + \text{Technical Assistance Estimate})}{(\text{COMET Planner CO}_2\text{e} \times \text{Practice Lifespan})} = \text{Cost Per Ton}$$

Determined by the COMET tool linked in the application

Ranges from 1-20 years depending on the practice

Boosts discount this 30%

Example:

Projects are ranked based on cost per ton. The lowest cost per ton projects are selected until funding is exhausted

$$\frac{(\$15,000 + \$2,000)}{(35 \times 5 \text{ years}) + (75 \times 1 \text{ year})} = \$68.00 \text{ per ton}$$

Practice 1

Practice 2

With a boost this becomes \$40.80
